

PRIVATE SALE PAPPER

What is ChipBet?

ChipBet opened in April 2010 and by the end of 2014 quickly became the most popular crowdfunded casino.

From 2015 ChipBet had the most wagered volume of all crowdfunded gambling sites, 100,000 Bitcoin, almost more than all competitors combined!

By December 2016 the crowdfunded bankroll had grown to 6000 Bitcoin, making ChipBet the most trusted dice site with the highest betting limits.

Previous investors made a total of 7400 Bitcoin profit in a little over 2 years.

This time ChipBet is launching an ICO to fund the bankroll and also development and marketing of brand new software.

The new version will launch with updated provably fair dice, roulette and blackjack games and allow players to bet with Bitcoin, Ethereum and many other currencies.

On the roadmap for the end of the year and early next are more casino games, sports betting and new poker software & Slot.

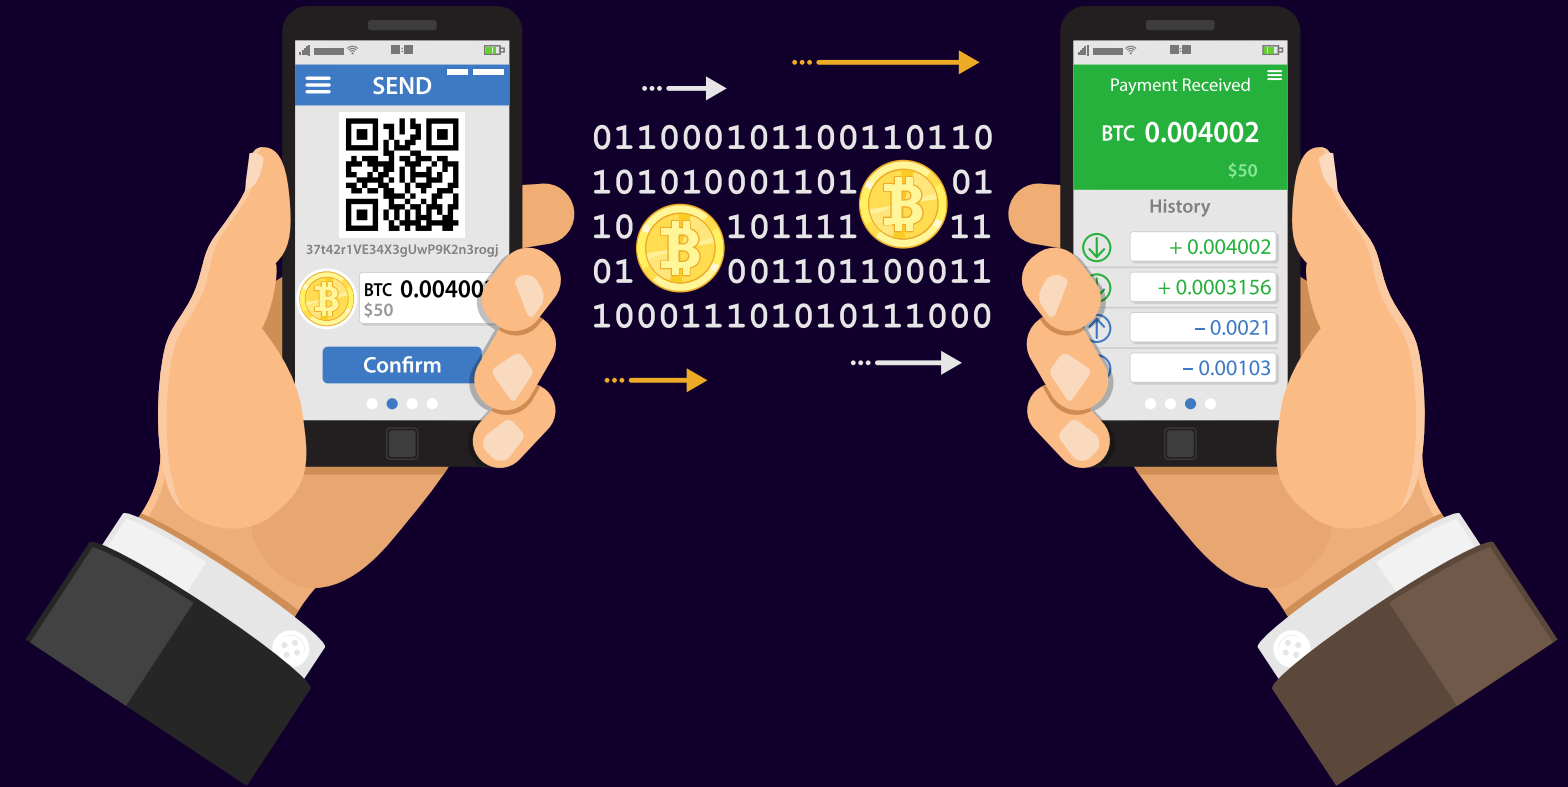

Join the Private Sale on March 12

There is no cap on the amount of funds that can be raised and 100.000 of 100,000,000 tokens will be sold.

Every quarter ChipBet will buy back up to 10% of all tokens from holders, if they wish to sell.

The buyback price that ChipBet offers is calculated as follows and is independent of 3rd party exchange rates:

(Initial token price + current bankroll profit)

For example, if the ICO raised \$2 million in the sale for 70% of tokens, then that would give the initial token price the value of \$0.0284.

If the bankroll profit after 6 months was \$2 million, then each token would now be worth \$0.0484, (\$2 million / 70 million) + (\$2 million / 100 million).

Project Details:

Name: Chip Token

Symbol: CHP

Supply: 100.000.000

Devs Token: 1% (1.000.000 Token)

Burn Token : 49% (49.000.000 Token)
